DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Deutsch (U.S. Patent Number 5,097,828).

Deutsch discloses a thermoelectric therapy device. Referring to Fig.1, the device comprises a thermoelectric module 52 within cylindrical head 14, an externally exposed cold sink 54, heat sinks 50,14,12, cylindrical handle 12 enclosed batteries and a switch 24.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Deutsch (U.S. Patent Number 5,097,828) in view of Saringer (U.S. Patent Number 5,628,769).

Deutsch discloses the invention substantially as claimed. However, Deutsch does not disclose foldable handle. Saringer discloses a foldable handle in the same field of endeavor for the purpose of pivot-attached handle and head. Therefore, it would have been obvious to one

having ordinary skill in the art at the time the invention was made to provide the apparatus of Deutsch with a foldable handle in view of Saringer so as to improve mobility.

The applicant should also note that a change in the shape of a prior art device is a design consideration within the skill of the art. In re Dailey, 357 F.2d 669, 149 USPQ 47 (CCPA 1966).
